Modernize your system now to the new X-RAY 8000 ADVANCED

Save material, CO2 and costs – upgrade your line.

The innovative X-RAY 8000 ADVANCED offers you these advantages:

1. Significant cost savings through faster eccentricity measurement compared to its predecessor device NXT

- Faster start-up and elimination of start-up scrap
- **Cost savings: 388.800 €/year**

2. Enormous cost savings through continuous optimization of production

- 5 % material savings through continuous wall thickness reduction
- **Cost savings: 250.000 €/year**

⇒ Total cost savings: 638.800 €/year

3. Ready for immediate and safe use and low maintenance

4. Sustainable CO2 reduction through material savings

- 5 % material savings through continuous wall thickness reduction
- **CO2 savings: 375 tons/year**
