

Become part of the SIKORA team

As a global player, SIKORA AG is active in the most important growth regions.

We are manufacturer and international supplier of innovative measuring, control, inspection, analysis, and sorting technologies. Our systems are used in wire, cable, hose, steel and plastic tubes, sheets, steel and plastics industries for quality control and process optimization. More than 250 employees at headquarters in Bremen, Germany, and in the international subsidiaries provide innovative product solutions and individual service for our customers.

All designations address all genders

Become part of our successful team as:

Service engineer for devices and systems in Italy (m/f/d)

Your offer to us:

- Successfully secluded training, ideally as an electronic engineer for devices and systems
- Experience in reading and understanding wiring diagrams and systematic elimination of failures
- Very good brazing skills
- Distinctive customer orientation and independent way of working
- Excellent English and Italian skills, both written and spoken

These tasks are waiting for you:

- Responsibility for the calibration of our equipment
- First contact for customers by phone and/or email with subsequent processing
- Responsibility for service and reconditioning of our devices all over the country
- Consultancy of customers on improvements of production parameters
- National travels and customer support throughout the country

Our offer to you:

We offer a diversified job and pleasant working atmosphere in a continuously growing international company. Due to the strong corporate culture and flat hierarchy, our mid-sized company provides the advantage of great reactivity. Furthermore, we offer trainings that optimally prepare you for future tasks. Diverse inter-divisional projects guarantee comprehensive knowledge of work processes as well as a successful integration into the team.

We are looking forward to your significant application documents including the next possible date of entry and your salary expectation. Direct your application and queries to sales@sikora-italia.com or +39 0444 526406
